

CLINICAL RESEARCH FELLOWSHIP

With an ultimate goal to upskill your Clinical Competency

COURSE STARTING 01 FEB 2024

We are happy to introduce the Clinical Research Fellowship programme by IDA, a thoughtfully curated module to provide learners with the foundational knowledge and skill sets required to produce high-quality clinical research.

All the course modules are aptly-timed covering various aspects of clinical trials including trials design, research ethics, drug research & toxicity, clinical data management, to name a few, through mentored training.

Join us in shaping the future of healthcare through the pursuit of excellence in clinical research.

BENEFITS

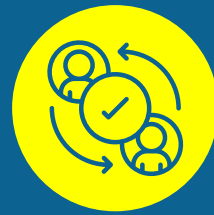

Hybrid Learning Format

Expert Mentors

Comprehensive Curriculum

Interactive Sessions

Industry Exposure

Job Opportunities

Course Objectives:

- Develop proficiency and expertise in designing, planning, implementing and conducting clinical trials at multi-centric sites in India and overseas.
- Gain effective interpersonal skills for interactions with study patients, their families, members of the research staff and sponsors within the clinical research setting.
- Hone communication skills to engage successfully with stakeholders in the clinical research arena and prepare for a career in public health research.
- Keep updated on regulations safeguarding human subjects in clinical research in India and globally.

Date of Commencement	1st February 2024
Duration	7 Months
Mode of Delivery	Hybrid

- Online (Lectures, Discussions, Group assignments, Case studies) - Saturdays & Sundays (5 hours each)
- Offline (Inauguration, Last module & Interactive Workshop, Convocation, and Site visits) - 4-5 consecutive days in IDA Head Office, Mumbai.

Speakers from renowned organisations like Pfizer, Wockhardt, Abbott India Ltd, Veeda Clinical Research Limited, Saveetha Dental College, J.N. Kapoor, D.A.V (C) Dental College.

Register Now

The Indian Dental Association (IDA) is a prominent force in Indian oral healthcare with 75 years in the public sector with 29 state and 600+ local branches. IDA is recognized by DSIR-SIRO & operates the Dr APJ Abdul Kalam Education, Research & Incubation Center, a major hub for education and research.
